

An Important Message and Update

Well, it's been well over a month since our last show was released.

So, what happened?

An epic physical failure of a crucial hard disk over here. Pretty much everything associated with the show--raw elements, completed shows, current projects, various production elements, and the master archive of shows in high quality--all lost. We've been working hard to recover what we can of various show elements and scraps of projects that were scattered across various back ups, but as we continue to search, we're discovering very little to salvage. This is pretty unfortunate. We're looking at a clean slate now, having lost so much and also having lost a few shows and projects that were not yet uploaded to the server or iTunes...but this event will simply force us to reinvent ourselves, adapt, and push our creativity to a higher level... we'll be back soon! Until then, take care and have a great Summer.

Things Happen!
